- C++
- Java
- DevOps
- Jira

I'M INTERESTED IN

- Racing (Karting)
- Cars and motorsports
- Personal Growth
- Bodybuilding
- Tech
- DIY

ABOUT ME

Results-oriented **Data and BI Specialist** with 10+ years of experience in data **analysis**, data **engineering**, and knowledge in **machine learning** and **AI**. Skilled in managing end-to-end data projects, including data collection, cleaning, analysis, and visualization. Proficient in different programming languages and comfortable with cloud data solutions and **ETL processes**, with a track record of deploying data-driven solutions that drove business growth. Seeking to leverage technical and analytical skills in a data specialist role.
